The National Highway Transportation and Safety Administration (NHTSA) has issued 2 safety-related recall notice(s) that may apply to the selected vehicle.

NHTSA ID:	17V773000	Issued:	Dec 12, 17	Number of Vehicles:	00134366
-----------	-----------	---------	------------	---------------------	----------

SERVICE BRAKES, HYDRAULIC Kia Motors America (Kia) is recalling certain 2012-2014 Forte and Forte Koup vehicles. The brake pedal stopper pad can deteriorate allowing the brake light switch plunger to remain extended when the brake pedal is released. This will allow the brake lights to remain illuminated continuously. It can also allow the shift lever to be moved without depressing the brake pedal, or activate the engine management brake pedal override feature. If the brake light switch plunger does not retract as it should when the brake pedal is not being pressed, the brake lights may stay illuminated preventing accurate communication to following vehicles that the vehicle is slowing or stopping. Additionally, if the brake switch plunger is not retracted, then the transmission can be shifted out of PARK without depressing the brake pedal. Either condition increases the risk of a crash. Kia will notify owners, and dealers will replace the brake pedal stopper pad, free of charge. The recall is expected to begin January 30, 2018. Owners may contact Kia customer service at 1-800-333-4542. Kia's number for this recall is SC158.

NHTSA ID:	15V015000	Issued:	Jan 1, 15	Number of Vehicles:	00086880
-----------	-----------	---------	-----------	---------------------	----------

ELECTRICAL SYSTEM Kia Motors America (Kia) is recalling certain model year 2014 Kia Forte vehicles manufactured December 5, 2012, to April 17, 2014. In the affected vehicles, the cooling fan resistor may overheat and melt. If the cooling fan resistor overheats and melts, there is an increased risk of a vehicle fire. Kia will notify owners, and for vehicles produced from December 5, 2012 to January 27, 2014, dealers will replace the cooling fan resistor and multi-fuse unit. For vehicles produced from January 28, 2014 to April 17, 2014, dealers will replace the multi-fuse unit only. Owners of vehicles with a 1.8L engine will also have the engine control unit software updated. The recall began on February 20, 2015. Owners may contact Kia customer service at 1-800-333-4542. Kia's number for this recall is SC113.
