Loss Vehicle 2014 Kia Forte LX Automatic

Loss Incident Date 09/03/2019 Claim Reported 09/10/2019

INSURANCE INFORMATION

Report Reference Number 94604126

Claim Reference 0606007200000001-01

Adjuster Cook, Myra Appraiser Marshall, Marrci

Odometer 63,322

Last Updated 09/10/2019 08:14 PM

VALUATION SUMMARY

Base Vehicle Value	\$ 8,703.00
PRIOR DAMAGE*	- \$ 1,037.50

\$7,665.50 **Adjusted Vehicle Value** Vehicular Tax (8%) + \$ 613.24

Tax reflects applicable state, county and municipal

taxes.

Value before Deductible \$ 8,278.74 Deductible* - \$ 500.00

Total \$7,778.74

Adjustments indicated with an Asterisk (*) have been determined by GEICO and have been added here for convenience.

The total may not represent the total of the settlement as other factors (e.g. license and fees) may need to be taken into account.

The CCC ONE® Market Valuation Report reflects CCC Information Services Inc.'s opinion as to the value of the loss vehicle, based on information provided to CCC by GEICO.

Loss vehicle has 16% fewer than average mileage of 75,200.

BASE VEHICLE VALUE

This is derived per our Valuation methodology described on the next

ADJUSTED VEHICLE VALUE

This is determined by adjusting the Base Vehicle Value to account for the actual condition of the loss vehicle and certain other reported attributes, if any, such as refurbishments and after factory equipment.

VALUATION METHODOLOGY

How was the valuation determined?

CLAIM INSPECTION

GEICO has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- · Similarity (such as equipment, mileage, and year)
- Proximity to the loss vehicle's primary garage location
- · Recency of information

Options

Keyless Entry Reported + 105 Cruise Control + 70 Reported Signal Integrated Mirrors Reported +8 Aluminum/Alloy Wheels Reported +140

Reported* Option(s) added after initial valuation

Vehicles sold in the United States are required to have a manufacturer assigned Vehicle Identification Number(VIN). This number provides certain specifications of the vehicle.

Please review the information in the Vehicle Information Section to confirm the reported mileage and to verify that the information accurately reflects the options, additional equipment or other aspects of the loss vehicle that may impact the value.

Allowances are factors influencing the value of the loss vehicle when compared to a typical vehicle. The typical vehicle is a vehicle of the same year, make, and model as the loss vehicle, including average mileage, and all standard equipment. These allowances are displayed for illustrative purposes only.

The Base Vehicle Value is calculated from the comparable vehicles with adjustments to reflect the loss vehicle configuration

Paint	AVERAGE PRIVATE	Notes: slight fading Guideline: Few small deep chips and/or scratches. No significant peeling and/or flaking. Minor swirl marks. Slight Fading.	\$ 0
Body	AVERAGE PRIVATE	Notes: average after upd for hail damage Guideline: Sheet Metal: Few dents and/or numerous dings. No significant surface rust. Trim: Minimal damage to components. Few dents and/or numerous dings.	\$ 0
Glass	AVERAGE PRIVATE	Notes: w/s damaged from primary poi Guideline: Light surface scratches and/or pitting. Few chips.	\$ 0
Seats	AVERAGE PRIVATE	Notes: lightly soiled Guideline: Lightly soiled, faded and/or discolored. Few small tears, holes and/or burn marks. No significant bare spots.	\$ 0

GEICO uses condition inspection guidelines to determine the condition of key components of the loss vehicle prior to the loss. The guidelines describe physical characteristics for these key components, for the condition selected based upon age. Inspection Notes reflect observations from the appraiser regarding the loss vehicle's condition.

CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Average Private condition. These dollar adjustments are based upon interviews with dealerships across the United States.

TITLE CHECK

THIS VEHICLE CHECKS OUT

AutoCheck's result for this loss vehicle show no significant title events. When found, events often indicate automotive damage or warnings associated with the vehicle.

EVENT CHECK

THIS VEHICLE CHECKS OUT

AutoCheck's result for this loss vehicle show no historical events that indicate a significant automotive problem. These problems can indicate past previous car damage, theft, or other significant problems.

VEHICLE INFORMATION

INFORMATION FOUND

AutoCheck found additional information on this vehicle. These records will provide more history for this loss vehicle

ODOMETER CHECK

THIS VEHICLE CHECKS OUT

AutoCheck's result for this loss vehicle show no indication of odometer rollback or tampering was found. AutoCheck determines odometer rollbacks by searching for records that indicate odometer readings less than a previously reported value. Other odometer events can report events of tampering, or possible odometer breakage.

SUPPLEMENTAL INFORMATION

NHTSA VEHICLE RECALL

NHTSA Campaign ID: 15V015000

Mfg's Report Date: JAN 15, 2015

Component: ELECTRICAL SYSTEM

Potential Number Of Units Affected: 86880

Summary: Kia Motors America (Kia) is recalling certain model year 2014 Kia Forte vehicles manufactured December 5, 2012, to April 17, 2014. In the affected vehicles, the cooling fan resistor may overheat and melt.

Consequence : If the cooling fan resistor overheats and melts, there is an increased risk of a vehicle fire.

Remedy: Kia will notify owners, and for vehicles produced from December 5, 2012 to January 27, 2014, dealers will replace the cooling fan resistor and multi-fuse unit. For vehicles produced from January 28, 2014 to April 17, 2014, dealers will replace the multi-fuse unit only. Owners of vehicles with a 1.8L engine will also have the engine control unit software updated. The recall began on February 20, 2015. Owners may contact Kia customer service at 1-800-333-4542. Kia's number for this recall is SC113.

Dates Of Manufacture: DEC 04, 2012 to APR 16, 2014

Manufacturer Recall No.: SC113

NHTSA Campaign ID: 17V773000 Mfg's Report Date: NOV 30, 2017

Component: SERVICE BRAKES, HYDRAULIC: PEDALS AND LINKAGES

Potential Number Of Units Affected: 134366

Summary: Kia Motors America (Kia) is recalling certain 2012-2014 Forte and Forte Koup vehicles. The brake pedal stopper pad can deteriorate allowing the brake light switch plunger to remain extended when the brake pedal is released. This will allow the brake lights to remain illuminated continuously. It can also allow the shift lever to be moved without depressing the brake pedal, or activate the engine management brake pedal override feature.

Consequence: If the brake light switch plunger does not retract as it should when the brake pedal is not being pressed, the brake lights may stay illuminated preventing accurate communication to following vehicles that the vehicle is slowing or stopping. Additionally, if the brake switch plunger is not retracted, then the transmission can be shifted out of PARK without depressing the brake pedal. Either condition increases the risk of a crash.

Remedy: Kia will notify owners, and dealers will replace the brake pedal stopper pad, free of charge. The recall is expected to begin January 30, 2018. Owners may contact Kia customer service at 1-800-333-4542. Kia's number for this recall is SC158.

Dates Of Manufacture: MAY 01, 2012 to FEB 27, 2014

Manufacturer Recall No.: SC158

The National Highway Traffic Safety Administration has issued 2 safety related recall notices that may apply to the above valued vehicle.
